

DEEPAK SHARMA

Web Developer

PROFILE

I am a Senior Shopify Developer with over 5 years of experience building and managing e-commerce websites. I work with Shopify Liquid and Headless setups, making sites that are easy to use and run smoothly. I have experience adding third-party tools, improving site speed, and creating custom features that help businesses grow. I like to combine my coding skills with a good sense of design, so the websites I build not only work well but also look good. I enjoy learning new technologies and using them to make better websites that keep customers happy and increase sales.

WORK EXPERIENCE

Sr. Software Engineer

May 2024 - Present

Rootsyntax Technologies

At Rootsyntax Technologies, I started creating full Shopify stores from scratch based on Figma designs shared by the team or clients. I build everything from the layout to custom and complex sections or features as per client requirements. This role helped me improve my frontend skills and taught me how to turn any design or idea into a fully working Shopify store.

Shopify Developer

September 2023 - April 2024

HP Infotech Computers

At HP Infotech Computers, I worked on similar Shopify projects, building and customizing stores for clients. During this time, I learned the deeper parts of Shopify, like working with metafields, loops, and other advanced features. This experience really helped me understand the core of Shopify and how to build more flexible and powerful online stores.

Shopify Developer

April 2022 - September 2023

Ekk Digital Vyapar Services (EDV)

At Ekk Digital Vyapar Services (EDV), I started building Shopify stores from scratch for different clients. My work mainly included setting up themes, creating custom sections, and adding unique features as per client needs. I focused on making the stores look clean, load fast, and work smoothly. I also handled integrations, customization, and overall website maintenance to make sure everything ran properly.

Web Designer

May 2020 - March 2022

F3 E-Commerce Consultancy LLP

I started my career at F3 E-Commerce Consultancy LLP as a Web Designer. My main job there was to maintain e-commerce functionality, handle product reconciliation, and make sure product quality and visibility were good for sales. That experience helped me understand how online stores actually work and what matters most for customers and business growth. Over time, I moved into Shopify development and learned how to build and manage full e-commerce websites from scratch.
